

CYCLE THE CITY DESTINATIONS

ABOUT THE ROUTE: Cycle the City is suitable for bicyclists who are generally comfortable riding on urban streets with bike lanes. The route mostly uses bike lanes and paths, on fairly flat terrain, with one long, gradual hill up lower City Creek Canyon.

1 Pioneer Park: The starting point to our route, Pioneer Park is the former site of the Old Pioneer Fort, erected the week the first Mormon pioneers arrived in Salt Lake in 1847. Today it is home to the Twilight Concert Series, Saturday Farmers' Market, and many more community activities.

2 Temple Square: Situated in the heart of downtown, Temple Square features the Temple, exquisite gardens, Tabernacle, and the world headquarters of the Church of Jesus Christ of Latter-day Saints. Please dismount and walk your bicycle through the Square.

3 Memory Grove: This beautiful park features several memorials to Utah's veterans, a replica of the Liberty Bell, and hiking trails through a botanical garden.

4 Utah State Capitol: Built from 1912 to 1916 with local granite, the Capitol Building features a dome covered with Utah copper. The grounds and building include many beehive symbols, representing the Utah values of industry and cooperation.

5 McCune Mansion: Completed in 1901 at a cost of \$1 million, this ornately-furnished mansion was designed by architect S.C. Dallas, and was originally the family home of a railroad tycoon. The mansion currently serves as a reception hall.

6 City & County Building: This historic building was constructed in 1894, and is currently the seat of Salt Lake City municipal government. It is centered on Washington Square, a city park which hosts concerts and festivals throughout the year.

CYCLE THE CITY DESTINATIONS

7 SLC Main Library: An architectural gem designed by world-renowned architecture firm Moshe Safdie and Associates, the Library has five floors and over a half-million books. Shops on the main floor offer a variety of services, such as food, coffee, artwork and a florist.

8 The Leonardo: This contemporary museum of art, science and technology is named after Leonardo DaVinci. The Leonardo features one-of-a-kind interactive exhibits, programs, workshops and classes.

9 Liberty Park: A classic urban park with a central tree-lined promenade, Liberty Park features a walking/biking loop path that you will sample on this ride.

10 Tracy Aviary: Located in a tranquil, wooded setting within Liberty Park, the Aviary is one of the largest in the country: home to over 100 species of birds. Bird shows are offered all year.

11 Peace Gardens: Dedicated in 1952 and representing 28 nations and their cultures, the Peace Gardens include plantings, garden architecture and statues of world peace leaders.

12 Fisher Mansion: Built in 1893 by beer baron Albert Fisher, the Fisher Mansion is a gem in the rough. The Mansion was recently acquired and stabilized by the city, and now awaits restoration to its former glory.

ROUTE MAP & DESTINATION GUIDE

See the sights of Salt Lake City by bicycle!

This 13.5-mile loop features downtown Salt Lake City and several historical sites along the way. The ride is a perfect half-day bike tour for visitors and residents alike. Route signs mark the way, and indicate the preferred direction to ride the loop.

bikeslc.com

A half-day bicycle tour of Salt Lake City, this 13.5-mile loop features downtown, key landmarks, urban parks and natural areas.

Optional Loop:
Lower City Creek Canyon goes up a gradual one-mile hill along a lovely creekside trail. Spectacular views of the city from Bonneville Blvd. are your reward!

No bikes on sidewalks within downtown area; walk bike in Temple Sq.

- SAFETY IN THE CITY**
- Follow all rules of the road, including stop signs and traffic signals.
 - Ride on the right side of the road, with traffic.
 - Use caution especially when crossing TRAX transit tracks. Bicycle wheels can get caught in the tracks.
 - If you are not comfortable turning left like a car (1), you may choose to turn left in two stages, like a pedestrian (2).
